

Carefully cut around the red lines.  
 Score with a sharp blade the black lines to enable folding  
 Glue flap end [A] of body with glue stick  
 Glue flap end to the inside of body [B]  
 Glue reverse side of flaps [D]  
 Place section [E] inside body and press flaps [D] around  
 Glue flaps [C] on printed side and fold over into box  
 Place section [F] onto flaps [C] and press down  
 You now have hopefully a small six-sided box
